ABOUT ME

Product Designer (UX/UI) with **4 years** of experience specializing in user-centered design for **SaaS, B2B, D2C and e-commerce products**, including **mobile apps, dashboards, landing pages and AI-powered experiences**. I use **user research** to uncover opportunities and translate insights into **wireframes, prototypes** and **end-to-end UI systems** for web and mobile. Experienced in **AI-assisted prototyping** and **usability testing**, I deliver **scalable, accessible and data-driven digital experiences**, collaborating closely with **product, engineering and marketing teams** to drive continuous improvement through iterative design. I am eager to bring this experience to an ambitious company, helping it scale its impact while we grow together.
